**DEVELOPING AND IMPLEMENTING
OUTSOURCED MANUFACTURING SOLUTIONS**

Who We Are

iSUN International Group (“iSUN”) is a U.S.-based company with over 20 years experience helping businesses develop and implement world-class contract manufacturing solutions. iSUN’s goal is to become a valued, strategic partner and function as your “Bridge to China”, and “your turn-key manufacturing facility overseas.” Working with you, we manage the entire process both here and overseas. We have been awarded “Vendor of the Year” recognition by two Fortune 500 companies. Our operating style is to make certain every detail, aspect and requirement on each and every project is carefully and fully addressed. Our philosophy is that success is only truly achieved by outstanding performance over a long-time horizon.

iSUN is dedicated to helping OEMs and other suppliers increase profits by providing reliable, professionally managed overseas contract manufacturing services. Using a combination of skills in design, engineering, manufacturing, technology, marketing, finance, strategy, global logistics and our TPM (Total Project Management) system, we mitigate risks and deliver measurable cost and quality improvements. We communicate effectively first with our customers in North America and Europe then with our team of professionals in Asia. iSUN leverages not only the lower direct costs of manufacturing in Asia but also the lower costs of overhead support staff by providing you our resources of experienced Asian professionally degreed design, engineering, sourcing and quality assurance professionals.

iSUN specializes in these core manufacturing competencies:

- **Precision plastic injection-molding**
- **Metals – castings, extrusions, fabrication, machining, stamping**
- **Electrical and electronic components**
- **Printed circuit boards**
- **Electro-mechanical assemblies and sub-assemblies**
- **General and complex assembly**
- **Complete finished product builds**
- **Finishing, decoration and packaging**

iSUN offers fully customized solutions ranging from the production of a single, component to the relocation offshore of an entire manufacturing operation. Unlike other contract manufacturers, iSUN's TPM (Total Project Management) system further drives out costs. Our TPM system includes **contract manufacturing** and the following:

- Product design and engineering enhancement options and alternatives
- Lower cost production process alternatives
- Experienced, professional U.S. based ownership and management team
- Partnering (JV's), sales, warehousing and distribution services
- Suggestions for product line extensions (new products/revenues)

iSUN focuses on discovering process improvements which are possible due to lower labor and overhead costs in China. iSUN's contract manufacturing model allows you to:

- Improve your return on capital
- Convert your purchased/manufactured costs to fixed, delivered "all in" costs
- Reduce your financial risk
- Deliver consistently high quality products at lower costs
- Focus on your core competencies in product innovation, customer and channel management, brand-building, marketing and sales
- Increase your revenues by putting freed-up capital to work

iSUN is headquartered outside of Metro Boston and has offices in Chicago, Toronto, and Hong Kong. In China, our manufacturing plants are located in the south near Shenzhen and in central China near Shanghai. In addition to the staff at our four factories, we have a staff of professionals based in Hong Kong and in China who are dedicated to helping us cost effectively manage the entire contract manufacturing process – from a product concept – to delivered finished products. Let us put our knowledge and experience to work for you, enabling your organization to receive measurable benefits and advantages of our proven global supply chain.
